## POLICY FOR DISABLED FRIENDLY ENVIRONMENT CAMPUS

The primary objectives of the "Persons with Disabilities (Equal Opportunities, Protection of Rights, and Full Participation) Act, 1996," which was enacted by Government of India on January 1, 1996, are to create a barrier-free environment for people with a disability and to make special provisions for their integration into society. It requires the institution to make provision, within their financial means, for the building of facilities for the benefit of disabled people, such as slopes in walkways for easier access for wheel chair users. In terms of equal treatment in the built environment, ramps in academic buildings, washroom for wheelchair users, and elevators have all been provided.

The other activities offered to the people with Disability are

- To provide accessible and inclusive education to ensure full participation of persons with disabilities and to provide them the equal opportunities for development
- To ensure overall accessibility for people with disability in the entire College by providing necessary amenities
- To educate both staff and students on the needs of people with disabilities and to encourage them to extend support towards them
